

**Laboratory's Scopes of Calibration**

Field of Calibration	Properties of Measured	Range	Calibration Methods
<b>Torque</b>	<b>Mechanical Calibrations Group</b>		
	Torque Drivers	Up-200 kgf.cm	ISO 6789-1992
	Torque Wrenches	Up-2000kgf.cm	
	Torque Gauges	Up-400kgf.cm	Direct measurement to weight + arm
	Torque Testers / Torque Meters	Up - 1000kgf.cm	
<b>Force</b>	Push-Pull Scales / Force Gauges	Up-200kgf (or equivalent unit)	Direct measurement by standard weight
	Handy Force Gauges (With load cell sensor)		
	Tension Gauges		
	Dial Tension Gauges		
	Tensile Machines [Compress and tension modes] (Site Calibration)	Up-100kN (or equivalent unit)	Direct comparison with standard force transducer
